

## INSTRUCTIONS FOR PRESENTATION

### Teenagers, protect your e-life

The presentation is made for children between 10 and 15 years. It can be used in class to present a few facts about youth on the internet and to give a few tips about internet security. We tried to make it short and rather informative as well as visually appealing.

We prepared:

Canva presentation you can get on link:

PDF version of presentation

Pictures that you can use to make an Instagram post.

How to use materials:

1. Inform yourself about the internet security in general.
2. Prepare some more facts and tips to enrich the presentation and make it more suitable for you and your class.
3. Start the presentation with some questions for the audience like:
  - Have you ever learned anything about internet security?
  - How many of you feel safe while using internet and social media?
  - Do you have any information about fraud or scam on the internet?
4. Leave time at the end to have a conversation about the topics and make sure the audience will remember the most important points, maybe to write them down or something similar.
