

<https://www.quizme.pl/q/iwr/safety-on-the-internet>

The quiz is prepared for young people that use the internet and social media on a daily basis.

The aim of the quiz is to find out what young people know about the internet security.

The quiz should take around 5 minutes to complete. When the answer is correct, the explanation should appear. Later, all participants can discuss the topic using these helpful questions:

Questions to ask after the quiz:

1. Did you enjoy yourself while taking the quiz?
2. Do you feel like you gained some knowledge on how to be safe on the web?
3. Do you have your own ideas on how to be more secure on the Internet?
4. Are the people in your country behaving safely while using their devices, the internet?
5. Do you have any stories about the cases in which the person acted carelessly and put themselves in danger? (if you want to talk about it at all)
